

**AMENDMENTS TO THE SPECIFICATION**

Please amend paragraph [0040] (as referenced in the published application) or the paragraph that bridges pages 8 and 9 in the specification as filed as follows:

[0040] Although aspects of methods, systems, and articles of manufacture consistent with the present invention are depicted as being stored in memory, one having skill in the art will appreciate that these aspects may be stored on or read from other computer-readable media, such as secondary storage devices, including hard disks, floppy disks, and CD-ROM; ~~a carrier wave received from a network such as the Internet;~~ or other forms of ROM or RAM either currently known or later developed. Further, although specific components of data processing system 100 have been described, one skilled in the art will appreciate that a data processing system suitable for use with methods, systems, and articles of manufacture consistent with the present invention may contain additional or different components.
